MORE THAN AN EXTREME SPORTS FILM, A TRUE ADVENTURE

The latest Nuit de la Glisse film. The tale of men and women attracted by the magnetic force of unleashed elements.

After the critically acclaimed «Don't Crack Under Pressure» trilogy, the film director Thierry Donard had to strive for greatness to come up with a new ambitious film project.

The team has travelled the globe to the most remote locations, from New Zealand to Pakistan to the Islands of Tahiti, bringing the latest camera technology and joined by the best athletes in their discipline to capture on film a modern day adventure.

SYNOPSIS

You'd never plan to spend your life chasing the elements, watching changes to the sky or the swell...you'd never think that you'd travel across the whole world searching for a wave, a line or a perfect moment...

But once you experience the joy that this lifestyle brings, you will always be drawn to the natural world like a magnet, in the hope that it never ends.

CGR, LiveImKino, The Space, Pathé, Cinéplex, Cinéstar, Cinémaxx, Kinopolis, Oslo Kinos, Direct TV, Red Bull TV, Globosat, Ushuaia TV...

NUIT^{DE} LA GLISSE

Nuit de la Glisse was born at the end of the 70's by a group of inspired visionaries, giving birth to a true social phenomenon, today known under the French term «Glisse».

Today, the 'Nuit de la Glisse' films embody the origins of this trend, and have evolved over the last 3 decades to encompass newly emerging glisse sports, while at the same time, documenting the amazing and exciting developments in our original passions, surfing and snow sports. By gathering together all the different sports fans to one common and unique event for the last 35 years at cinema halls across the whole of Europe, Nuit de la Glisse has positioned itself as a legitimate and recognizable brand. The event consists, above all, of a previously unreleased film featuring 'glisse' sports such as surfing, skiing, snowboarding, base jumping, mountain biking, skateboarding and many more, filmed in breathtaking settings all around the planet.

THIERRY DONARD

film director

Passionate about action sports since he was 5 years old, Thierry made his first ski film at 13.

In 1978 he met someone who would change his life: Dick Barrymore, an American film director and action sports film pioneer in the U.S. Thierry worked alongside him for 10 years.

In 1984 he created with his avant-garde group of skier and surfer friends the first film released under the label "Nuit de la Glisse", the first 90-minute feature-length film dedicated to actions sports to be broadcasted on TV in France.

He then continued between 1989-94 with the concept series "Pushing the Limits".

In 1996 he relaunched the "Nuit de la Glisse" series with the intention of extending his films to cinema theaters and consolidated his project since then. These films are now part of one of the biggest European extreme sport labels with the biggest distribution network throughout Europe.
